A city merchant stated the other day to a customer when asked where he could have a cane stamped on a lady's pocket book: "Oh! there is no place in town where it could be done." His customer replied: "Does not the Intelligence do that sort of work?" "Well," said this merchant, "we send our stamping and binding to Toronto. The customer informed him that he had seen first-class work from the Intelligence Job Office and binding in done at this office, equally as well as at any large city bindery, and our prices are moderate."

A \$70,000 FIRE.

Ottawa University Badly Damaged This Morning.

(Special to the Intelligence.)

OTTAWA, Jan. 5.—Fire broke out in the east wing of the Ottawa University (R.C.) at 9 o'clock this morning and before it could be got under control the upper stories of the wing were entirely gutted and the ground floor was badly damaged.

The chapel, which was situated on the second floor, and which was of the finest workmanship in the city, was destroyed. The loss of this alone was estimated at \$50,000. The total loss is placed at \$70,000. Insured.

Will Hold a Concert.

Mirzapur Lodge L.O.O.F. have completed arrangements for a notable concert on Tuesday, Feb. 8th. They had engaged five gentlemen, who will make the strongest programme ever presented to a Belleville audience.

They are Geo. Fox, of this city; Jas. Fox, Harry Rich, Bert Harvey and Cameron.

Small Fire.

At 10:40 this morning fire was discovered in the residence of Mrs. J. T. Warrington, Bridge St. The fire brigade was called out, but they were unable to get the fire out without turning water from the hydrant on. The damage will amount to about \$125. The fire caught from a match thrown into a waste paper basket.

Lady Reporters.

The New York Tribune, speaking of newspaper women in Toronto, mentions Miss Alice Planché-Morell, formerly of Picton, as the first woman on the World and the only woman now reporter on a Canadian daily.

Disinfectant is put in the blood before they open it and then themselves. Therefore keep the blood pure with **Hop's Serravallo's**.

THE LONDON CATASTROPHE.

Death List Diminishing Instead of Increasing.

Some Thought to be Dead Were Saved—Serious Condition of Some of the Injured—Funerals of the Victims.

(Special to the Intelligence.)

LONDON, Jan. 3.—The list of the dead as the result of Monday night's dreadful accident at the City Hall is diminishing instead of increasing.

So far it has been ascertained that neither James McLean nor John Fellows was killed, as reported.

The condition of several of the injured, however—among them Joyce and Ald. Neil Cooper—is serious, and it is doubtful if either of the two men named can recover.

A. A. Phillips, flour and feed merchant, who was killed, was to have been married shortly.

The funerals of three of the victims took place to-day. Those of the others will be held to-morrow.

Boys' Reefer Overcoats.

The proper garment for the healthy young boy. They are just as warm as the warm overcoat, much lower in price and more pleasing to the eye. Do you want a lad to look like a soldier or a sailor, or a fine winter sports? If so, encourage him; that is the way to give him health and strength. You get a good coat with a high collar at the Oak Hall for \$2.50 in the small sizes and \$3 in the larger ones.

Ahead of Time.

Last spring many gentlemen found it impossible to get Slater boots. The factory was taken beyond its capacity. To avoid a recurrence of this disappointment next spring, Haines & Lockett are having the whole spring stock sent on ahead of time. About twenty cases have already arrived and they are in every sense up-to-date shoes.

Looks Like a Slate.

Already there are rumors abroad that a slate has been formed by the committee and their chairman in the new City Council. One or two members of the present Council and an ex-alderman met on the eve of election and it is said they have everything fixed for next Monday morning. The rumor has been that Ald. Wallace is to be Chairman of Finance and Ald. Harris, Chairman of Public Works. If this slate works so nicely as the one drawn up last year the two gentlemen above named will be lucky if they get anything more than a seat on one of the standing committees. Down with slates! Let the Council do the work of striking the committees when it needs for organization.

Henry George's Last Work.
The book upon which Henry George spent the last six years of his life will be published this month by Mr. George N. Morang, Toronto. It will make a large octavo volume and contain about as much matter as "Progress and Poverty," the surprising popularity of which is attested by the fact that over 5000 copies have been sold during the past month. The new book will be entitled "The Science of Political Economy," which the author characterizes in his introduction as follows: "Of all sciences political economy is that which to civilized men of the day is the most practical importance. For it is the science which treats of the nature of wealth and the laws of its production and distribution; that is to say, of matters which affect the larger part of the thought and effort of the vast majority of us—the getting of a living." Mr. Morang also announces for publication in February "Simon Dale," by Anthony Hope. The book will be about 400 pages, containing eight full page illustrations.

STRAW PAPER.

A Correspondent Makes Some Good Suggestions.

To the Editor of the INTELLIGENCER.
DEAR SIR,—When about to commence my letter I was intending to direct it to a Mr. Stephen Laster, manufacturer of straw paper on the southern shore near Belleville, but it being several years since I was acquainted with him, and not knowing whether he was in business or not, I came to the conclusion I would write to the INTELLIGENCER.
The object of my writing is not for my personal benefit, nor that I know would benefit the farmers here, but I do believe there is something good right here for the straw paper manufacturer.
So far as I know there are no straw paper mills in the territory, though I am but a laboring man and not very well posted as to what is going on in the North-West.
At Katchewan, on the Qu'Appelle River (although I have not seen it yet), I believe would be worth a trip from Ontario to any paper maker to see if who they have any notion of trying the business in the North-West.
The place is (they say) 10 miles from Indian Head and a good road. There are a brick yard and lime burning has not been a great while started, but seems likely to boom, as they say they cannot burn lime and make it fast enough to supply the demands of the farmers. Several people here went up last summer, not far from Katchewan. I mention the brick and lime on account of it being handy to the ground you may say for the builder. Qu'Appelle river is a fine stream, plenty of water all the year for steaming straw, pulping and washing; but I think steam or gasoline power would be best for the place, for there are hundreds, yes thousands, of tons of it in smoke every year within five miles of the place, and for anything that I know of I don't see why some person or company could not start manufacturing paper there, five or six miles from all kinds of paper goods, or building paper—paper for building material. It is being done in the States. Why not in Canada? I believe paper will take the place of lumber for a great many things in the line of building, etc.

I cannot dwell any more upon the subject at present, but if at one as could be interested enough to make enquiries, may write to me and I will give what information I can to obtain the desired information for them.

Yours very truly,
JOSEPH H. PRICE,

Two Funerals.

The funeral of the late James Corbett took place from the residence of his uncle, William Corbett, Charles st., at 2:30 this afternoon. The remains were prepared for burial last evening by Tickell & Sons, who had charge of the funeral. The popularity of the deceased was clearly shown by the large number of young and old men who gathered at the house and followed the remains to their last resting place in the cemetery. The casket was covered with beautiful floral tributes from relatives and friends. Rev. T. J. Thompson officiated at the house and at the grave. The bearers were Messrs. Geo. Dalmage, Alf. McCrodon, R. H. Ketcheson, H. A. Thompson, Chas. Thompson and Frank LeCordon. The remains of the late Thomas Gardner were laid to rest this afternoon at 2:30 in the cemetery. Services were held at his late residence, Albert st., and conducted by Rev. Chas. E. McIntyre. There was a large gathering of friends at the house and the floral designs upon the casket were both numerous and beautiful. Among the relatives of deceased present were his sons, John, of Kingston, and Harry, of Deseronto; and his son-in-law and daughter, Mr. and Mrs. John Scott, Ottawa. The bearers were Messrs. Fred Richardson, G. E. Reeves, W. J. Diamond, Jas. A. Chisholm, A. McFee and A. Henry.

A BOGUS CONFESSION.

John Murray Tells the Windsor Police About the Napanee Bank Robbery.

The Toronto detective department is in communication with the Windsor police respecting a person giving the name of John Murray, who arrived in the latter place on Tuesday, last and sought out the chief of police, to whom he stated that he knew something about the Napanee bank robbery. Murray could not give any information to Windsor instead of Toronto, but later he said he was travelling salesman for a Toronto tailoring house, that he had become intoxicated and sold his sample case for \$10. It was at first thought that Murray might have been implicated in the burglary of the store of J. J. Follett, the tailor of 181 Yonge street, Toronto, but inquiry revealed the fact that a person of his name was formerly a native of Oshawa, where he carried on a tailoring business. Some time ago he received a sample case from Mr. Follett, but as he received no orders he was requested to return it and did so about a week since. He was in Oshawa shortly before the end of December. The Windsor police have liberated him, attaching no credence to either of his stories.

Magistrate Flint's Court.

A boy named Ray Smith, who has been arrested several times on charges of petty larceny, was arrested this morning on the charge of stealing hay from Daniel Tanner, the driver of the Ivanhoe stage. It appears he took the hay in small quantities and sold it to the farmers to feed their horses. The Magistrate read him a severe lecture and gave him a suspended sentence of three years in the Reformatory.

The twenty-eighth annual provincial convention of the Young Men's Christian Association of Ontario and Quebec will be held in Brantford next week from January 20th to 23rd.

The programme, as published, represents subjects for discussion embracing every feature of the many-sided work for the young men of our province.

The papers and addresses are in charge of leaders in the work embracing the following:

Messrs. John R. Mott and W. B. Miller, of New York; Mr. Frank Ober, editor of "Men," Chicago, and Mr. J. F. Moore, of New York, International Secretary of the Railroad Department.

Among the Canadian speakers are Messrs. J. P. Pomeroy, F. C. S. Gosselin, jr., Toronto; Rev. C. H. Kimball, Aylmer; D. A. Budge, Montreal, and Mr. H. H. Buxton, of Peterborough, the latter having charge of a paper on "The Ideal Physical Development."

Rev. Elmore Harris, of the Toronto Bible Training School, has charge of the "Bible Studies," which are always the central feature of the convention, as the Bible is the centre of the work.

The Women's Auxiliaries of the Association have their convention in the same city at the same time, and a number of ladies, prominent in association work, will take part.

Peterborough Association will in all probability entertain the convention next year.

Epiphany Entertainment.

The scholars of St. John's Sunday School gave their annual entertainment last night, and, despite the inclement weather, attracted a large audience. There were drills, disambos, and instrumental music, which combined to form a pleasing programme.

HOCKEY.

The local Hockey Club will not play tonight, as the ice was too thin.

The Owner, a Farmer, Cleverly Caught and Imprisoned.

An illicit whiskey still was seized yesterday from William Ollaghan, of the Township of Emily, County of Victoria, about seven miles east of Lindsay. Callaghan is a farmer, and it has been known to the Government officers that he was in the "Mountain Dew" business, as it is called in the Southern States, for some time past, but, owing to the proverbial cunning of men in this illicit trade, he was not "landed" sooner. The seizure was made under instructions from District Inspector W. L. Hamilton, who sent a Toronto Preventive Officer to Callaghan's farm, where the still was located, and the "manufacturer" was locked up.

The case was brought before the Police Magistrate at Peterborough this morning, when the prisoner pleaded guilty. He was fined \$100 and sentenced to one month's imprisonment in goal with hard labor.

Bargains in Youths' Ulsters.

In sizes 31 to 35 the Oak Hall are offering bargain values. We find we are overstocked in these sizes, and for the balance of the winter you may have a discount of 20% on all except the \$4 and \$5 ones. These lines cannot cut, as they are sold at too close a profit to allow any further discount.

Y. M. C. A. Notes.

Breast Club meets to-night at 7:30.

The Basket Ball team left for Peterborough to-day, where they play with a team of that place to-night.

The crying need of the young men's meetings on Sunday afternoon is better music. Secretary Hordman is endeavoring to form an orchestra from among the members. He has secured three young men with instruments and has another who plays the cornet, but is in such circumstances that he cannot procure one. There is a cornet in W. B. Riggs' for \$5.

Mr. Hordman has his heart set on it, and would be very much elated if some friend of music and young men would donate the instrument or send a subscription for that purpose.

Following committees were appointed by the President of the Young Men's Christian Association for the year 1898:

In Penetrating Power.

No remedy in the world equals nerve-pain cure. Neuralgia and rheumatism are relieved almost instantly, and the minor aches and pains are cured by a single application. Nerve-pain cure is sure to cure.

Disgracefully Obscene.

Several who attended the so-called "Pier Gaiety Girls" last night in the opera hall tell us that the whole show, or portions thereof, was positively vulgar and obscene. As they are billed for two more nights, would it not be well for the police to do their duty by stopping in and stopping this performance if it is of the character represented? This sort of thing should not be allowed in our midst.

Committee of the Cabinet

Makes Rules for the Yukon

Miners

A Big Change of Policy—The Alternate

Block Reservation and Sliding

Scale of Royalty Abandoned.

OTTAWA, Jan. 13.—A committee of the

Cabinet has drawn up new regulations for

the government of mining in the Yukon,

which make important changes. The

policy, as originally announced by Mr. Sif-

ton, had as its main features the reserva-

tion of alternate claimants the exception of

royalty based upon a sliding scale in pro-

portion to the amount of gold yielded.

Both these propositions elicited vigorous

protests from the mining interests, and it

was declared by experts that such a roy-

alty would not be collectible. The Govern-

ment has modified the regulations with a

view to meeting to some extent the objec-

tions. When Mr. Sifton went west last

fall he had an opportunity of meeting a

good many men who understood the situa-

tion, and the consequence was he came

back prepared to modify his views. It is

now stated that the alternate claim regula-

tion has been abandoned, and that the

Government will reserve alternate blocks

of ten or twenty claims. The information

Dangers of Delay.

If we were allowed to look in the future and see the fatal consequences that follow neglected colds, how liberally would our course be guided. We would seek a cure, but with many it is only when the milder disease has fastened its fangs upon our lungs, and we awaken to our fully. What follows a neglected cold? Croup, bronchitis, asthma, an emphysema, and many other diseases of like nature. It is worse than measles to neglect a cold, and it is fully not to have some good remedy available for this frequent complaint. One of the most efficacious and safe for all diseases of the throat and chest is Dr. Williams' Pink Pills for Pale People. This medicine is composed of several mild herbs, which exert a most wonderful influence in curing consumption and other diseases of the lungs and chest. It cures a free and easy expectoration, soothes irritation and drives the disease from the system.

It is easier to be good than great—there is less opposition. At Dr. Williams' Dispensary, a Great Medical Triumph—Gentlemen, a medical adviser and others told me I could not possibly live when I commenced to use Dr. Williams' Pink Pills for Pale People. For three years I could not eat meat and my weight decreased from 210 to 110 lbs. All the food I took for three months previous to the time I began to use Dr. Williams' Pink Pills for Pale People. I am now entirely cured and have gained my usual weight, can eat anything with a kernel of meat and feel like a new man. I have sold thirty dozen Vegetables. Dr. Williams' Pink Pills for Pale People cured me, and people in this section know how I was cured. I could not possibly be cured. They are eager to try this great medicine. It certainly saved my life and I am now recovered when first I commenced using it. I am not exaggerating anything, but feel that I am able to testify to the fact that this medicine is a great blessing to the human race, and that it may be the means of convincing others of its merit. I am now cured of my disease. (Signed) John Valcourt, General Manager, Wotton.

The sun shines for all, but the sleeping car porter does it for a quarter. Totally Deaf.—Mr. S. E. Grandell, Port Perry, writes:—I was afflicted with deafness last winter, which resulted in my becoming totally deaf in one ear and partially in the other. After trying various remedies, and consulting several doctors, without obtaining relief, I was induced to try Dr. Thomas' Electric Oil. I warmed the Oil and poured a little into my ear, and before long the deafness was completely restored. I have heard of other cases of deafness being cured by the use of this medicine.

Poems often come to the throat—It is accompanied by a return of coughs. Dogs are annually taxed two dollar each in Paris; but pups are exempt until they are weaned.

Cholera morbus, cramps and kindred complaints mar the appearance at the same time as the hot weather, green fruit, cucumbers, melons, etc., and many persons are debilitated from eating these tempting fruits, but they need not abstain if they have Dr. J. D. Kellogg's Dysentery Cordial, and take a few drops in water. It cures cramps and cholera in a remarkable manner, and is sure to check every disturbance.

A man has a rattling old time when he throws dice for the drink. How to Cure Headache.—Some people suffer until misery day after day with headache. There is rest neither day nor night until the nerves are utterly exhausted. A cure is generally discovered, and a cure can be effected by the use of Dr. Williams' Pink Pills, containing Mandrake and Dandelion. Mr. Finlay W. Lyander, P.O. writes: "I find Dr. Williams' Pink Pills a cordial for Bilious Headache."

Love and war go hand in hand. Even the din of battle has a sort of romantic ring. The proprietors of Parmelee's Pills are constant receiving letters similar to the following, which explains its use. Dr. J. A. Beam, Waterloo, Ont., writes: "I never used any medicine that could equal Parmelee's Pills for dyspepsia, indigestion and biliousness. The relief experienced after using these pills was wonderful. It is a family medicine. Parmelee's Vegetable Pills can be given in all cases requiring a cathartic. It is the small things of life that are most annoying. Even the little mosquito bite can be a deadly Chicago news."

FRIENDSHIP'S OFFERING

Mr. R. T. Mussen's Friends Show Their Appreciation of Him.

Mr. R. T. Mussen, of the Bank of Commerce, who left this morning for Dresden, Ont., where he is to be the Manager of the new branch in that place, has not been allowed to leave Belleville without practical evidence of the esteem in which he is held in this community.

On Monday night his fellow boarders in the Balmoral Hotel made him a gift of a silver mounted umbrella, and yesterday afternoon the officers of the 15th Battalion presented him with a handsome onyx table and a brass lamp. Lieut.-Col. Ponton, who made the presentation, read the following address:

BELLEVILLE, Jan. 18th, 1898.

Lieutenant R. T. Mussen, XV. Battalion, A.L.I.

My Dear Mussen.—On behalf of the Officers, Non-commissioned Officers and men of the XV. Battalion, I must express our sincere regret at parting from you, at least for a time, so far as your active personal connection with the Battalion is concerned. In granting you leave of absence, which is most satisfactory to know that you are being transferred to a post of honor and responsibility, which we know you merit, we are sure that your fellow-officers, as a small mark of their appreciation of your good service in the Battalion and of your good comradeship, desire your acceptance of the accompanying souvenir of pleasant months spent together. And we wish you all success in your new campaign of life and labor.

Faithfully yours,
(Sgd.) W. N. Ponton, Lieut.-Col.

Com'd'g. XV. Batt. A.L.I.

Lieut. Mussen made a suitable reply. He carried with him the good wishes of many friends in Belleville.

Magistrate Flint's Court.

"SHORTY" HUNT got drunk yesterday, and when he could not get any more drink he went home and began to abuse his wife. The police were called in and "Shorty" was placed in "duress vile." The Magistrate gave him a lecture this morning and dismissed him.

IT WAS ONLY PLAY.

The charge of assault preferred by Henry Mallard against five boys at the court yesterday was dismissed, as it was clearly proven that they were merely playing with the unsophisticated youth. Mr. A. A. Roberts defended the boys.

Belleville Boy at Ogdensburg

Mr. Wm. Fairman, formerly of this city, is now living in Ogdensburg. He sang at a bazaar there recently and the News has the following to say of his singing: "Mr. Fairman made a decided hit with his fine baritone song, 'That Sweet Refrain.' Tumults of applause followed and the singer graciously responded with that old but sweet 'Then You'll Remember Me.' A second encore ensued, but Father Gurney begged him off, with a promise to produce him the night following."

To-morrow's Meetings.

The Liberal-Conservative Association of West Hastings will hold their annual meeting at 2 p.m. to-morrow in Alberta Hall for the election of officers and the transaction of other business. A large attendance is desirable.

The Liberal of West Hastings will meet at Trenton to-morrow afternoon for the purpose of selecting a candidate for the Legislature.

Prince Edward Conservatives

The annual meeting of the Liberal Conservative Association of Prince Edward will be held at Picton on Saturday next. Amongst the speakers whose names are announced are Mr. W. R. Dempsey, the candidate for the county; Sir Mackenzie Bowell, Messrs. Henry Corby, M.P., W. B. Northrup, Mayor Johnson and W. S. Morden.

Many Clothing Bargains

Some people don't want to buy clothing only just exactly when they need it. Now, sometimes this is a mistake. There is no doubt but if you were to look through the Oak Hall stock right now, you would find some very tempting bargains in both suits and overcoats. This is between seasons, and we are clearing up our stock before the new goods come in for spring.

DEATH OF E. J. MADDEN.

He Was Rational to the Last—Well Known Cheese Buyer.

The Kingston Whig of Tuesday gives the following particulars of the death of a prominent cheese buyer of this district: "E. J. Madden, of Newburgh, died last night about 11:30, aged fifty years. He has been engaged in cheese manufacturing, also as general cheese buyer in Kingston, Napawan, Belleville and Peterborough districts for about twenty years. He owns a factory at Newburgh, also one at Camden East. Mr. Madden was a thorough, pushing business man and will be greatly missed by all, especially by the farming community. The cause of death was a chronic case of gall stone followed by a carbuncle, ending in convulsions. He was rational up to the last minute. He was a member of the Masonic Order, also A. O. U. W. and I. O. O. F., also order of Chosen Friends and Postmaster of Newburgh. He leaves a widow, one son and two daughters. He will be buried at Newburgh on Thursday, under Masonic auspices and other societies.

Decased, who was a son of Mr. Robert Madden, was born on a farm adjacent to Newburgh. For a number of years Mr. Madden followed the life of a farmer upon the homestead of his parents. While still a young man he suffered from falling health and took a tour through the west to recuperate his lost energies. Returning he engaged in the manufacture of cheese together with his father. There was the first factory in that locality and was the second in this district. Mr. Madden continued in the cheese business and amassed considerable wealth. For over twenty years he worked energetically for the advancement of the cheese industry and his knowledge of the business was conceded to be the most complete in Eastern Ontario.

As an official of the Butter and Cheese Association of Eastern Ontario, his recommendations were always accepted as tending to the betterment of the industry. His wife's maiden name was Allie Wells, Brockton.

Mr. Madden was well known in Belleville, especially by cheesemen, among whom he was very popular. He attended nearly every meeting of the Cheese Board here and his opinions as to the trade were always sought after. He will be deeply regretted in this district.

Mr. Gilbert Parker begins his new novel with a stirring chapter, full of good fighting, in the January number of "Good Words."

The story opens twenty years before this century, in the Island of Jersey, with a French attempt to land upon the "Banc des Violets." Rulerose is leading the invaders, and, of course, he fails. There comes every promise of an interesting and exciting plot to come.—St. James Gazette, December 31st, 1897.

The legal fraternity requires its stationery at the lowest possible rates, as large quantities are consumed in the transaction of business and naturally look to the manufacturers or wholesalers for the best terms.
A certain estimable lawyer of this city was recently approached by one of these Toronto agents, and in order to satisfy himself whether the agent's boast of lower prices was true or not he made a memo of the quotations he received and made a comparison with ours, and here it is:

BRITAIN'S CLEVER DIPLOMACY.

Whilst the enemies of Great Britain have been proclaiming the triumph of Germany, Russia and France over "perfidious Albion" in China, and exulting in the belief that the enormous trade of our mother country with the "Celestial Empire" was being undermined, Britain's skilled diplomats have been quietly achieving one of the greatest diplomatic triumphs on record. They have, in no selfish spirit and by means of a peaceful character, but the lion has at the same time uttered the warning that, even at the cost of war, the door of Chinese commerce shall not be shut to Great Britain.

This mainly declaration—and nothing less was looked for from that greatest of living Englishmen, the Marquis of Salisbury—has stirred the heart of every patriot Briton, whilst the would-be robbers stand aghast, because they will know that the statements of Mr. Balfour and Sir Michael Hicks-Beach are not mere idle words, but are backed up by the power which can give them effect.

It is gratifying to find that Britain's action is not only endorsed, but warmly lauded, by the leading exponents of public opinion in the United States. For instance, the New York COMMERCIAL ADVERTISER says on the subject:

"It is not surprising that France and Russia protest against the terms upon which Great Britain proposes to guarantee the Chinese loan, though these terms are entirely acceptable to China. It is probable that Germany will join in the protest, on her own account as well as on that of her fellow free-traders. These protests have the continental scheme of spoliation in China which the powers have tried to cover with professions of peace and commercial enterprises. Nothing in the British terms violates the principle of equality in trade privileges and railroad and other commercial concessions, which Great Britain has asserted temperately and to which the continental powers were obliged to give reluctant, perfunctory assent or confess themselves mere medieval pirates. There is no hint of territorial aggrandizement for Great Britain or even of increase of her influence in the Government of Peking. There is no hint of interference with extension of French trade in the north or of French trade in the south, or with the concession of Port Arthur as a port and railroad terminus and a route through Manchuria for the Siberian railroad to Russia. All Great Britain requires is equal trade and railroad concessions to herself in other parts of the Empire. She accepts as serious the solemn assurances of the continental powers that they seek only commercial objects in China, and propose to seek the same objects in common with her, not for herself alone, but for the whole commercial world."

"This action creates an awkward dilemma for the continental powers. They must either make good their professions of seeking only equal commercial privileges in China and be content to share with Great Britain in the free development of the trade of the Empire, or they must confess secret purposes of spoliation and partition and defy the moral sense of the civilized world. The dilemma is easier for Russia, which has no public opinion to fear at home, than for France or Germany. It will be particularly awkward for France to stand confessed before the altars of modern civilization, whose priestesses she affects to be, as a medieval pirate."

"It is undeniable, nevertheless, that acceptance by China of the British terms would interfere seriously with extension of the place of the continental powers. Extension northward of the Burma railway would invade provinces the French have marked out for their own; opening of three new free ports would draw trade from the exclusive stations Germany and Russia mean to set up, and exclusion of foreign influence from the great Yang-Tze-Kiang valley will reserve the best part of China for English occupation when time shall come for final dissection and partition of the empire. But they cannot reject them without confessing inability to compete with Great Britain in free commercial exploitation of China and the purpose to revive medieval notions of exclusive and trade monopoly. English diplomacy is as sagacious. It has gained a large strategic advantage in the money market without incurring the cost or danger of war."

JUST DAWNED ON IT.

"To tell it here and stick to it, display splendid tenacity, but is both absurd and dangerous in a moral community."—Junior Editor.

Admirable! Glad you have found it out and made an open confession. Great wonder it didn't dawn on you sooner. Might have saved you trouble and the commission of many sins. Let's hope for future repentance. It is well to begin young.

SNAP SHOTS AT TIMELY TOPICS.

—Hardly fears that he will get "cold justice" from the editors. So he will, and "the cold shoulder" as well.

—The Grits are spreading the report that E. W. RATHBURN, Esq., has consented to be a candidate in East Hastings. Don't believe a word of it.

—Under Whitney's rule no public official will have his life insurance paid out of the public treasury, in any case under the Mowat-Hardy Government.

—The Hardies are not by any means so formidable as they are made out to be. In "great cry and little wool" as butcher Newton said when he stuck the cholera-infected pigs at the Hamster piggery.

—The latest Grit rumors are that Morrison refuses to leave the Conservative ranks and refuse to go to the polls. "The wish is father to the thought," but then it is clinched by a Grit who exclaims, "Oh, thou gullible creature!"

—Alderman Profontaine, M.P., has been elected Mayor of Montreal, notwithstanding the opposition of the Government's English and French organs, the Herald and La Patrie. This is a direct blow at Tarte and Greenhalgh, who furnished the \$30,000 to buy the Tarte-Greenhalghs. The law is rising and the end close at hand.

—The latest exhibition of hypocrisy is the passing of a resolution at the Liberal Grits, gathering yesterday at Trenton, expressing contempt for those who have had the misfortune to occupy it. It is not long since that Mr. Mayor Ope was drowned on Skagway trail, and a few days ago ex-Mayor Oppenheimer died suddenly; and now our old fellow townsman, William Templeton, who fought a hard battle on the 13th inst. for reelection to the Mayor's chair, fell dead, though in the prime of life. Yet it will not prevent seekers after fame from fighting for honors.

—The President of the United States recommends to Congress the immediate payment of the Behring Sea award. He says: "Our treaty obligations demand prompt and favorable action by Congress, which I urgently hope may be taken, to the end that these long pending questions may be finally and satisfactorily terminated. The total amount necessary to satisfy the awards of the commissioners is \$475,101.26, which I recommend to be appropriated. Will the Morgan tribe of fire-eaters act upon this recommendation, or will they still show fight?"

—Prof. Goldwin Smith declares in the (Patron) News in favor of Mr. Whitney's proposal of an Advisory Council of experts for the assistance of the Minister of Education. Mr. Rose replied that it would be impossible for a Parliamentary Minister to act with an Advisory Council. Prof. Smith points out, however, that "in England both the Parliamentary Minister for India and the Parliamentary First Lord of the Admiralty act with Advisory Councils of experts; and no difficulty has been found in either case. The title of the Minister of Education himself is Vice-President of the Committee of Privy Council of Education, the Privy Council being a non-parliamentary body, and he also has experts to assist him. If the temper of the Minister were arbitrary and overbearing, he might very likely quarrel with his Council, otherwise there is no reason why they should not work smoothly together. Educational administration, unlike the ordinary business of the province, requires special experience, of which we never can be sure in a Minister appointed on political grounds. The professor, the professional, the man who thoroughly understands and passionately attracts, needs protection against arbitrary bureaucracy. Of this we have had sufficient proof. It is to be hoped that Mr. Whitney," concludes Professor Smith, "having put his hand to the plough, will not turn back. If he goes forward he will carry with him the best wishes of all the true friends of education."

—Prof. Smith's experience as an educator has been long and extensive, and his opinion as to Mr. Whitney's policy is shared by a very large majority of the most competent educators in Canada is well known, and will be made manifest at the coming election.

THE ARMY IN GOOD SHAPE.

Lord Wolsey Made a Reassuring Speech Last Night.

One of the First Army Corps Could Be Available to Transport Them If It Were Required—Said Lord Wolsey.

London, Jan. 21.—General Lord Wolsey, field marshal and commander in chief of the British army, speaking at a banquet in the Grosvenor Hotel, stated that he had no doubt that the army was in good shape.

Lord Wolsey assured that if England declared war to-morrow she could have one of the finest and most fully equipped army corps in readiness for any British port before ships could be prepared to embark them. He said furthermore that if the men were better paid, there would be no difficulty in obtaining recruits.

The Daily Mail, commenting on the recent Ministerial speeches and the proposed additions to the army and navy, thinks that all parties that follow Salisbury can be regarded as necessary.

There has been a responsible statement that the government has decided to add 7,000 men to the army, and that the first class battleship Hamilton, now at Portsmouth, is to be put at once into commission. There is, however, no official information or confirmation in either case.

He threatened reprisals and a withdrawal of friendship and credit, and a statement in public that he hoped that the woman would be hanged. British Masonic Benevolence.

London, Jan. 21.—The annual contribution for the year 1907 for three Masonic institutions, the Royal Masonic Benevolent Institution, the Royal Masonic Benevolent Institution for Girls, and the Royal Masonic Benevolent Institution for Boys, amounted to \$71,897, or \$109,195, about \$1,000 for each day in the year. In seven years (1897) the total subscription for the same charities amounted to \$600,000. The Evidence at the Trial is Very Damaging Against the Accused—Finding a Dead Husband.

St. Scholastique, Que., Jan. 21.—At half-past ten yesterday morning proceedings in the Poirier murder trial resumed. Joseph Poirier, who yesterday afternoon had given very damaging evidence against the prisoner, was cross-examined to have made a statement in public that he hoped that the woman would be hanged. Now, however, he would make no definite admission of having done so.

MR. SIFTON'S ROYALTY IDEA.

Yankee Miners Would Skip Across Border With Dust

While the Canadians Would Have to Pay Up or Become Outlaws—Says Showing That U.S. Officials Would Probably Help Them to Cheat Our Government Report of Mr. W. T. Jennings, C.E., on Proposed Railway.

Ottawa, Jan. 21.—W. T. Jennings, C.E., who last fall was sent by the Government to survey a route for a railway from Telegraph Creek on the Stikine River to Toile Lake, has handed in his report. The estimated distance to be covered by the railway is 125 miles. Mr. Jennings went over the entire route, and his opinion is that a standard gauge road can be built for \$25,000 per mile and a narrow gauge for \$20,000. His report will be made public shortly, and will also include descriptions of the other routes by way of the Chilcotin and White Pass, and the Taku River route.

MR. SIFTON'S IDEA.

A Method by Which Canadians Will Surely be Discriminated Against in Their Own Country.

The Liberal press has lent every encouragement to the Hon. Mr. Sifton's idea of a Yukon gold mining royalty, by presenting that there would be no trouble in collecting the tax owing to the limited ways and means of export from the country. This view was obviously put forward in denial of the contention of disinterested people that, owing to the proximity of the gold fields to the Alaskan boundary, the output of the mines would be smuggled across the boundary without paying the royalty.

A significant corroboration of the latter contention is furnished by an incident which occurred in the Government mines. An old man named Coy was deserted and robbed of \$1,500 worth of gold dust by his two companions at Lake English, on the way out from Dawson. The thieves were followed, but got across the border. At the boundary line the United States Commissioner was asked by Mr. Wood of the Northwest Mounted Police, to arrest the fugitives, but he refused, saying that he had no jurisdiction over the matter. Mr. Wood said: "I then offered to let information before him, charging the fellows with bringing stolen property into the United States. He replied that this was no offence in Alaska. Coy arrived in Skagway yesterday, and Mr. Wood's face told his gold and sleighs, and laughed at him when he attempted to claim them."

When it comes to smuggling gold dust across the boundary to escape the ten per cent royalty it may be imagined on which side the miners and the United States authorities will be ranged. And the worst of it is that the alien may thus escape taxation, while the Canadian miner will have to pay or become an outlaw.

A Tremendous Score.

A funny thing has occurred in connection with the publication at Halifax of an alleged draft of the I.C.R. freight tariff. The tariff is up in arms against the Government because it is stated that the tariff discriminates in favor of St. John. Against Halifax, while the Canadian Minister says the Halifax people who are raising such a storm are laboring altogether under delusion. He had not authorized the issue of a new freight tariff to St. John, although the distance to St. John from Montreal is 97 miles shorter. Telegrams of protest have been pouring in upon the department, notably from Mr. Russell, Minister of Finance. Only a few more days will those lovely slippers remain in the window of Haines & Lockett. They are worth. They are good and still more worth buying. They are a good thing for ladies to have in the house in case they need them unexpectedly. — HAINES & LOCKETT.

A RICH MINE.

The Repstock, in Kaladar, Promises Great Things for its Owners.

Mr. David McQuigge, of this city, who has charge of the work of sinking a shaft in what is known as the Repstock gold mine in Kaladar, was home to spend Sunday. He doesn't think the mine is very rich in itself, but he is increasing in quantity as the shaft goes down.

The mine is in the township of Kaladar, about two miles north-east of Flinton, and as before stated in these columns, is being developed by a company of Buffalo capitalists. The vein, which is fourteen feet wide, has been traced for over two miles. The test shaft has been sunk fourteen feet and the company propose to go down fifty feet. If the vein holds out as good as at present, and it gives every promise of doing so, the company will erect a crusher about half a mile distant on the Root river, where there is a splendid water power. Mr. McQuigge returned to the mine this afternoon.

Bargains in Boys' Suits

Over two hundred boys' suits, 22 to 28, worn on the bargain tables today at the Oak Hall. We are stock-taking, and everything at all low has been thrown out. We also have quite a few three piece suits and suits to clear. The discount runs 30 to 50%. It will pay you to buy a suit now.

Gospel Temperance Meeting.

A real good, 40-minute gospel temperance meeting was the 4th yesterday afternoon in the Royal Tan. Rev. Mr. G. W. Gower was the speaker. A large audience was present. The meeting was a success. Rev. Gower is not only eloquent, but full of wit, but has thin lips, face of awing his audience that they are at once with him. The Tabernacle trio furnished the special music, and it was a treat. The meetings are closing each Sunday.

PRINCE EDWARD

CONSERVATIVES

Held a Rousing Meeting in Picton on Saturday.

The outlook for the Conservatives redeeming Prince Edward at the coming elections are very bright, if the large and enthusiastic gathering held at Picton on Saturday afternoon is any criterion. It was the largest meeting of Conservatives held in the County in years and augurs well for the success of Mr. W. R. Dempsey, the nominee of the party.

The Prince Edward Liberal-Conservative Association met at one o'clock and elected the following officers:
W. R. Williamson, President; Elias R. Young, Vice-President; and L. A. Wright, Secretary.

W. Boulter, seconded by G. O. Alcorn, moved a resolution of confidence in Mr. Whitney.

Mr. Dempsey, said they had a duty to perform, and he believed the people were ready to help him to carry it forward in a very successful manner. (Cheers.)

Mr. H. Conby, M.P., said he was pleased to be at the attendance at this meeting. He believed the Conservative party was a solid phalanx in the Conservative interest.

Mr. W. S. Morden said we have three candidates before us, not three political parties. He believed the Patron party was dead, and he had little to say about them, as he had always been taught to speak respectfully of the dead. He spoke of the political conduct of Mr. Conby, and he wondered at the Grits of Prince Edward putting a candidate in the field.

HE WAS TAKEN ILL

George VanTassel Laid by the Road-side Five Hours.

Quite a little excitement was created on Saturday evening by the sudden disappearance of George VanTassel, head clerk in Yarmouth & Son's hardware store. He left the store about 6:40 to go home to his tea. He called at Chapin's confectionery store and left there shortly before 7 o'clock apparently in good health.

When a short distance this side of the pump house on the Trenton road he was taken suddenly ill and must have become unconscious, for about 12 o'clock he was found lying under the hedge on the north side of the road. Thinking he had only been there a few minutes, he started back to the city. When he got to Front st. he met two friends, who drew his attention to the time of night and also to the fact that his disappearance had caused a great deal of anxiety on the part of his friends.

He soon found the searchers and was driven to his home in Avondale. He has been in bed since, but was better today. Had it been a cold night he would undoubtedly have perished where he fell.

He understands his trade and has adapted his methods with every satisfaction both as to health and improved appearance.

Manitoba Weather.

LOVELAND, Man., Jan. 19th, '98.
We are having splendid weather; the thermometer has only dropped to 28 degrees this day. The snow is only about 4 inches deep, not enough for good sleighing. Horses and cattle can be seen grazing in the open fields, which is seldom seen at this time of the year in southern Manitoba. We have experienced what is known as a January thaw here.

From the present prospects an early spring is expected. There will be a large crop of wheat and a large number of young men from Ontario will be welcomed to this province in about two weeks. We do not want foreigners, especially Mr. Sifton's men here yet.

A Snow Blockade.

A heavy fall of snow covering the country between Montreal and Brockville, has caused a blockade of the Grand Trunk at Brockville between three and four feet of snow fell on Saturday and Sunday, and all the snow ploughs have been kept busy from there east. The express due here at 3 p.m. yesterday did not get in till 10 p.m. and the 9:15 train this morning was six hours late. No freight came in from the Montreal night. The blockade was the worst at Vaudreuil — 100 miles west of Lachine.

East Hastings Grits.

A number of Liberals drove out to Mulroney this afternoon to attend the Convention to select a candidate to contest the riding at the coming elections. Among the names were: Blanche Brantford, who drove out in company with Campbell Brown, of the Junior Grit organ, and Alex. Smith, the Grit organizer, of Toronto. Where was Mr. T.S. Carman, of the senior Grit organ? Has he been thrown overboard by the Grits of East Hastings?

Mr. J. P. Thompson, City Treasurer, met with a serious accident at his residence on Commercial St. on Saturday afternoon. He was in his bathroom when he slipped and fell, breaking two ribs. He will be confined to his house for two weeks at least.

Mr. Morrison's Canvass.

Mayor Morrison of Trenton, the Conservative Candidate in West Hastings, is making a tour of the town of Belton and is meeting with splendid success. His election is almost a foregone conclusion.

J. K. McCARGAR, WARDEN

The County Council at its January Session.

The Warden Urges Economy—Appreciation of Ex-Warden Dench's Services—The Opening Business of the Session.

The January session of the County Council opened in the Council Chamber, Shire Hall, Tuesday afternoon at three o'clock, although two o'clock was the hour they should have met. The members were all present at two o'clock, but the Warden, who turned it was to elect the Warden under the existing agreement between the two political parties in the Council, was into caucus and was an hour in settling the question of who should preside during 1898. Mr. Cleary and Mr. McCargar were the aspirants for the office, and the two factions had quite a hot time before they came to a vote, when Mr. McCargar was chosen.

The Clerk called the members to order and called for nominations for Warden.

Mr. Holgate moved, seconded by Mr. Lancaster, that Mr. J. K. McCargar be Warden for the ensuing year.

As there were no other nominations Mr. McCargar was declared elected by a standing vote, and Mr. McCargar subscribed to the oath of office, after which he took the chair.

He thanked the Council for the honor they had conferred upon him and asked the assistance of the members in filling the office. He would endeavor to fill the chair to the best of his ability. Coming to County affairs, he said it should be the aim of the Council to cut down expenses, particularly on High Schools and County roads. The High Schools have become a burden upon the County, and it should be divided. He thought that \$10,000 would be sufficient to spend on gravel roads. A deputation would wait upon the Council during the session to press the erection of a bridge over the Moira, north of the G.T.R., and he had no doubt they would deal with it as they saw best. After thanking the Council again for the honor he took his seat.

Mr. Dench congratulated His Honor on his election and he also congratulated the Reformers on electing their man without bringing politics into the Council.

Mr. McCargar complimented Mr. Dench upon the manner in which he conducted the affairs of the office of Warden last year.

Mr. Cross spoke in a similar strain and he hoped the same good feeling and business-like procedure would prevail during the coming year. He hoped the same mode of electing a Warden would be adhered to in years to come.

Moved by Mr. Hanley, seconded by Mr. English, that the thanks of the Council are due and are tendered to Ex-Warden Dench for the efficient manner in which he conducted the affairs of the County for the past year.

After several members spoke endorsing the motion it carried by a standing vote, and the members sang "For He's a Jolly Good Fellow."

Mr. Dench acknowledged the vote of thanks. If his services had given satisfaction he considered he had done nothing more than his duty. He extended his most sincere thanks to the members and the officials for the hearty assistance they had given him in the performance of his duties. He felt specially grateful to the Clerk for the many kindnesses he had extended to him. He would assist the new Warden in any way in his power during the year. (Applause.)

The Legislature adjourned till ten o'clock Wednesday morning.

WEDNESDAY MORNING SESSION.

The Council opened this morning at ten o'clock in the chair and all the members present.

The following communications were read and referred to their respective committees or filed as the case might require:

From the Grand Jury at the last County Court, accompanied by their remonstrance.

From the County Council of Lanark, asking the County Council of Hastings to join with them in a memorial to the Ontario Legislature.

From a Toronto company to issue bonds required by County officials.

From County Council of the County of Bruce, asking the local Council to unite in a petition to the Government respecting the maintenance of paupers, etc.

From the High and Public School Trustees Association of Ontario, asking the Council to send a delegate to the annual convention.

From John Bell, Q.C., County Solicitor, regarding the telephone to be placed in the County buildings, holding that the city should bear half the expense.

Police Magistrate Clark and Police Magistrate Flint's annual reports as to fines and fees were received.

From John McKay, Toronto, offering his services as expert auditor.

From the Prisoners' Aid Association of Canada, asking for the usual yearly grant.

From H. H. Bedford, Police Magistrate of Deseronto, asking for his jurisdiction.

The late Warden, Mr. J. S. Danahy, read a report of the accounts passed by him for fuel supplies, repairs, etc., since the December session. Report received and filed.

The County Superintendent of Roads and Bridges, Mr. P. Vankloek, reported on work done and being done since last session on roads and bridges, and work necessary to be done on certain bridges throughout the county.

A statement of receipts and expenditures by the County for the year was presented from the Treasurer.

Mr. Pearce gave notice that he would introduce on Thursday by-laws for the apportionment of the County of Hastings of Justice Accounts, and High School Trustees.

Mr. Holgate gave notice that he would introduce by-law to make provision for a non-resident pupil attending the High School.

Mr. Dench gave notice of a by-law to improve a town highway and peddler.

How Canadians Were Treated
YANKIES LET OFF, CANADIANS PUNISHED!

Already attention has been called to the manner in which the Ontario Government condoned the fraud committed by the Moore Lumbering Co. of Michigan. Now we have a case showing how the same Government treated a Canadian firm who were suspected of wrong doing, but whose trouble it appears, arose out of the wrong doing of an "agent of the Government."

The following article gives the facts, and we leave them to the judgment of the impartial reader:

The facts relating to the Moore Lumber Company affair can be related in a few words. This Michigan corporation had timber lands in Ontario, and it was duty bound to preserve an accurate record of its cut, and the stumpage due must be levied according to law. One of its officers kept a double record. In one record he gave the correct figures for the guidance of the company. In another he entered fraudulent figures for the use of the lumbermen. The process continued during four years as a result of which the company passed from the Crown lands to the Michigan mills without payment of the tax. The Government may find the legal owner, or may condone the fraud, but it is not the report and to the declarations of Mr. Hardy in the House, neither his confession nor his determination upon. Quite the contrary: the amount that ought to have been paid in the first instance was calculated, and from this sum—\$15,712.72—the sum of just about \$5,000 was made, on the ground that some of the timber consisted of culls. The Michigan company paid its \$10,000—the full sum, less the \$5,000 discount—and got off scot free.

In Peterborough, the other day, Mr. John Green, addressing a public audience, contradicted the treatment accorded to a Canadian lumber firm with that meted out to a Canadian lumber firm some years ago. "A Scott of Peterborough," he said, "owing to the wrong doing of an agent of the Government," the Government. A deputation of Peterborough citizens, Green and Torrie, presented to the Government against the action. The Government then imposed a fine of \$20,000. The reason for this was that Mr. Scott's friends explained that this lumber had not all been taken from Government lands. A good deal of it came off Mr. Scott's own private lands. So that there is one reason for the Michigan man, and another for the Canadian. The Michigan man, and another for the Canadian. The Michigan man, and another for the Canadian.

THE DRUMMOND COUNTY DEAL.

A telegram to the Montreal Star on the 25th inst. says:

In connection with the Drummond County Railway arrangement, it is stated that Hon. A. G. Blair has become anxious that any agreement made on the surface should be included in the transaction, and has determined that as far as the Government is concerned, the arrangement should be taken over by the Government. For this reason, it is reported, further steps will be taken toward the acquisition of the line by the federal government at present. Mr. Blair will have a full examination of the construction, ballasting and particulars of the line, and will make a report before any agreement is arrived at. As this cannot be done until after the further steps will be taken, and that the large sums of public money had been voted and paid to the Drummond County Railway Greenfield manipulators, to put the road in proper running order. What state must the road have been in. When Blair proposed last year to enter into a hard and fast bargain for ninety-nine years, if, after all the repairs which have been done on the road, it is not now in a fit state to take over, even upon a basis of a yearly rental? The public can now judge of the value to the country of

SNAP SHOTS AT TIMELY TOPICS.

—The Toronto Star (Grit) says the elections will take place March 1st.

—The cost of a lot taken up to Dawson by Evans, Coleman & Evans, special messenger is \$3,000,000 or more, and only a limited number of lots can be taken.

—Mr. Hardy's boom in Belleville and the surrounding country seems much like the boom we hear on sham fight days—just the noise of black charges.

—The baby Grit shoot, of this city, in connection with the Liberal Union, letter, has come to the conclusion that "the mountain that labored so long and promised so much has brought forth another mouse." This is a very old and familiar quotation, which any half baked simpleton could repeat.

—The Liberal party want the three Hastings ridings and it won't be happy until it gets them.—Senior Grit organ.

There is a saying when one dead—a long time dead—so the Conservative party intend to take the three ridings of right in the three Hastings constituencies during the coming Provincial election, the senior Grit shot still positively remain unhappy for years to come.

WHITNEY'S VISIT POSTPONED.

The visit of Mr. Whitney to Belleville has, owing to other engagements, been postponed. Due notice will be given when a definite date has been fixed.

BURNS' NIGHT.

Camp Rob Roy Celebrate the Anniversary of the Poet.

Camp Rob Roy Sons of Scotland celebrated Burns' anniversary last evening by an open meeting and a choice programme. Mr. A. McGie Chief of the Camp, presided. The programme consisted of vocal solos by Miss Maggie Falconer, Tread; Mr. F. G. Lewis, Mr. John McIntosh and Miss Maggie Milne; vocal duets by the Misses Wilson, Miss Jessie Robertson and Mr. John McIntosh, and Miss Thompson and Mr. Walter Mills; readings, Miss Jessie Robertson; pipe selections, Mr. Wm. McIntosh; and an address on Burns and Scottish history by Col. Pon-ton. It was a delightful evening for the large number of persons present.

Youths' Ulsters.

The Oak Hall are giving some extra good value in youths' ulsters. Does your boy want a coat over for next winter? If so, why not spare a small amount of cash and invest now? We can't afford to carry these heavy coats over until next winter, and if prices will go, these youths' ulsters will soon all sell.

Not on the Programme.

A little incident occurred at the opera house last evening between the first and second acts of "A Trip to Cootenow," which was not on the bill of the play.

Manager McKay appeared before the curtain after the first act and announced that the performance would be repeated this evening, but he had only left the stage when Manager Coker appeared on behalf of the company and stated there would be no performance this evening unless he arrived at an understanding with Mr. McKay in the meantime.

The two managers retired to the box office, where hot words ensued, and the audience were kept waiting. They began to call for the balance of the show or their money back. After a half hour's interruption the show went on, but it would appear as though there was no understanding between Mr. Coker and Mr. McKay. One announced to the retiring audience that there would be no show this evening, whilst the other had a man calling out "The performance will be repeated to-morrow evening."

Cannibals Arrested.

Constable Johnson, of this city and Constable Scrimshaw, of Springfield, brought to the city this morning John Mack and Wm. Green, known as cannibals, who were charged with the murder of a man named Green. The former is charged with biting Green's fingers and the latter is charged with biting off Mack's ear. They appeared before County Judge Laidlaw this morning. The accused both pleaded guilty and the Judge remanded them until this afternoon on bail, in order that he might look over the depositions. Mack was fined \$30 and Green \$50 and \$1 for assaulting young Scrimshaw, to be paid within ten days.

THE CRIT CONVENTION.

Mr. W. H. Biggar Declines the Nomination.

The Last Chance Gone—Casting About for a Leader of the Forlorn Hope.—H. G. Blocker Takes a Week to Think it Over—Notes of the Proceedings.

The Crit meeting called for the selection of a candidate for West Hastings was held on January 27th, and resulted in aught but talk. The food on the of the party have been shattered by the refusal of Mr. William H. Biggar, M.P.P., to become the party's candidate. Mr. Henry G. Blocker, of Sidney, was offered the leadership of the forlorn hope, but was given, at his own request, a week to think it over.

The meeting, which was held in the Carman Opera House, was at no time during the afternoon very large, there being numbers of seats in the house unoccupied. The contingent from Trenton was largely composed of the young men, under 30, who have no voice in the selection of a representative. No doubt a free ride to the city was to many the controlling motive.

The chair was occupied by Mr. H. G. Blocker, of Sidney, President of the Reform Association, and associated with him upon the platform were a number of the prominent workers of the party in the riding.

The chairman, in opening the proceedings, spoke for some minutes in a eulogistic manner of the many acts of the Provincial Government, which, he claimed, had been performed in the interest of the province. The Government should, he contended, be sustained, because it had governed the province well. Mr. Whitney, the Conservative leader, had no policy to offer, with the exception of the little pig, which was even dead. (Laughter.) He then called for nominations.

Mr. Geo. A. White, of Trenton, proposed Mr. W. H. Biggar, and the motion was supported by Dr. Simmons, E. G. Sils and others, who spoke of Mr. Biggar as the man who could lead the party to victory.

There being no other nomination at this time it was made unanimous, and was cordially received.

Mr. Biggar, upon rising to respond, was received with cheers. He stated that it was a great honor to represent West Hastings, and he appreciated the loyal support that had been given him in the past. He had striven to represent the people faithfully. He supported the present Government because there was only one party there, namely, the Liberal party. Mr. Whitney had no policy on which to appeal to the people. In speaking of the nomination which had been tendered him, he said it was difficult for him to say no, but he would have to say it, as it was impossible for him to be the candidate again, for reasons which he had given in private to a number of friends. He was, however, not the only man in the riding who could carry the banner to victory and he would, in declining the nomination, state that he would do all in his power to secure the election of the Liberal candidate whoever he might be.

The declaration of Mr. Biggar to become the candidate was an apparent surprise to the vast majority of those present, and it had the effect of dampening their ardor perceptibly.

The chairman stated that, as the meeting had been called to select a candidate, and Mr. Biggar had declined the nomination, he would ask for nominations.

The following names were submitted: Messrs. J. M. Farley, H. G. Blocker, E. G. Sils, ex-M.P.P., Dr. Simmons, of Frankford; J. G. Frost, T. S. Carman, Ald. McCann, John Williams, O. D. McCauley, J. L. Biggar, Dr. McColl, Dr. E. E. E. of Belleville; A. Parent, Geo. A. White and J. Bigelow, of Trenton.

The various gentlemen nominated were called upon and all retired.

Mr. Blocker had read down were plenty of good names submitted and among them gentlemen who could carry the West Riding. He did not believe he could carry the riding on his own.

Rev. Dr. Gardiner, of Belleville, spoke at some length eulogizing the Government and announcing that he had always been a Liberal, as was his father before him.

Mr. A. Parent said they were somewhat on account of Mr. Biggar's refusal. Trenton Liberals would, however, support heartily any other man (although he was willing to admit that they could not promise a majority in Trenton in their candidate's favor). Victory was, however, in their grasp and they should secure it.

Mr. Morrison, of Trenton, was not worthy of the position, although he was Mayor of the town. Belleville, he claimed, should not support Mr. Morrison because he had refused to carry the banner of a position of their water power for electric lighting purposes. In conclusion, he spoke of the Ontario Government as a good and economical Government, and in their hands the Province was safe.

Ald. McCann said he was not a candidate. It was not a difficult matter for him to be an alderman for Coleman Ward, and if he had this Ward alone to contest he would not be afraid of the result were he a candidate, but he unfortunately remarked that there were other wards and divisions in the riding.

Mr. John Williams remarked that Mr. Biggar was not the only Liberal who could carry West Hastings. He (the speaker) had no inclination to accept the nomination.

Mr. John Nicholson, of Trenton, was frank in his remarks. He said he had neither the time nor money to go into the fight.

Mr. E. G. Sils said West Hastings was a possible constituency for the Liberal party in the forthcoming election. He was, however, not willing to accept the nomination.

Mr. J. M. Farley said he did not intend to be a candidate. He was afraid of losing his name but could not carry the banner. There was, however, a good fighting chance, although without Mr. Biggar as the candidate, it meant hard work for every reformer. He was in

THE WARDEN'S SUPPER.

A Splendid Spread and a Delightful Evening.

The Warden of the County, Mr. J. K. McGargar, as has been the custom of his predecessors, entertained the members of the Council, County officials and others to a supper at Hotel Quince last evening.

It is needless to say that the supper was faultless and admirably served, as it was under the personal direction of Mr. Baird. Toasts and speeches followed till an early hour this morning.

Those present were: Warden McGargar, Mayor Johnson, Magistrate Flint, Col. Ponton, Judge Frailek, County Crown Attorney Anderson, ex-Alt. Ald. Kingston, ex-Warden Dunlop, Registrar Day, County Treasurer Wells, County Clerk Aylsworth, Inspector Johnson, Superintendent Vankleek, Mr. E. P. Brinnell, J. E. Halliwell, Messrs. Parker, Cross, Hanley, Holgate, Douglas, Lancaster, English, Pearson, Page, Garfield Wilcox.

Our Clerk Aylsworth occupied the chair and ex-Warden Dunlop the vice chair in a manner that was pleasing to all present.

"The Queen" was the first toast and was honored by the company singing "God Save the Queen."

"The Dominion Parliament, Local Legislation and the Judiciary," responded to by Judge Frailek and Police Magistrate Flint, both of whom made excellent speeches.

"The Army and Volunteers," was the next toast and coupled with it were the names of Col. Ponton and Major Halliwell, and duly honored. Mr. Wells recited several reminiscences in connection with the earlier Councils of Hastings. The other gentlemen responded to the toast in short speeches.

"The Learned Professions" was the next toast. It was responded to by Dr. Day, P. J. M. Anderson and Major Halliwell.

"Our Educational Institutions," was responded to by Mr. F. B. Parker and Mr. John Johnston.

"Our Agricultural Interests," was responded to by Messrs. Holgate and Hanley.

"Our Mining Interests," was duly responded to by Mr. Cross and Mr. Pearson.

"The Press," responded to by representatives of the INTELLIGENCER, the Ontario and the Sun.

"The Ladies," was responded to by Messrs. E. P. Brinnell, Vankleek and Lancaster.

The gathering broke up by singing "Auld Lang Syne" and "God Save the Queen."

As the Conservative Candidate in East Hastings

Mr. Hudson Declines for Personal Reasons—The Nomination Unanimous—Officers Elected and Speeches Made.

The adjourned meeting of the Conservative of East Hastings was held at Roulin yesterday afternoon, and despite the fact that it was a bitterly cold day there was a large turnout from all parts of the riding, and the same harmonious feeling prevailed as existed at the meeting a week previous.

Mr. W. P. Hudson, who was nominated at the meeting a week ago, and who was given a week in which to decide whether he would accept or not, was present and addressed the meeting. He declined the nomination for personal reasons, which he stated to the meeting, and which were quite satisfactory to those present.

The President, Mr. P. R. Daly, called for nominations and Mr. John Stokes, of Hungerford, and Mr. Alex. McFarlane, of Tyndinag, were nominated.

Mr. McFarlane retired in favor of Mr. Stokes, and in doing so said he did so because he thought Mr. Stokes was a stronger man than himself in the riding. He appealed to the farmers of East Hastings to support Mr. Stokes as a farmer, who would look closely to their interests if elected.

The nomination of Mr. Stokes was unanimous and was received with loud cheers. The candidate addressed the meeting at some length, dealing with some important issues of the present contest. He was going into the fight to win and asked the support of every Conservative in the riding to assist him in his purpose.

Addresses were also made by Mr. W. B. Northrup, Ald. N. B. Falkner and others, all of whom predicted for Mr. Stokes a sweeping victory.

The following officers for the Conservative Association of East Hastings were elected:

President—P. R. Daly (re-elected). Vice-Presidents—Thurlo, E. N. Gould; Tyndinag, Adam, Leslie; Hungerford, Robert; Severn, Wood, Wm. White; Deseronto, Dr. Newton.

Secretary—Chas. Hudson.

The meeting broke up with cheers for the candidate, Mr. Whitney and the Queen.

DESERONTO BEATEN.

The Belleville Hockey Team Put up a Strong Game Last Night.

The first game of hockey this season in the Quinte League on local ice was played last evening on the I.O.O.F. band rink and Deseronto was the opposing team.

It proved a walk-over for the locals, who literally snowed the boys from Sawdustville under. The local team is by no means what it was last year, yet it can give any team in the district a strong argument.

To describe the game in detail would be monotonous to our readers, as the puck was most of the time in Deseronto territory and it was a veritable shower of shots that rained on their fortresses. In the first half Belleville scored seven goals to their opponents two and in the second half they scored eight to one, making the total fifteen to three.

The Deseronto team has some good individual players, but they were successfully checked by the strong Belleville defense.

The teams were as follows:

Deseronto—Stewart, goal; Edwards, point; Woodcock, cover point; McDonald, J. Edwards, Prickett, O'Rourke, forwards.

Belleville—Jamieson, goal; Hulme, point; Matheson, cover point; Dr. Perry Goldsmith, Hicks, McGuire and Gorman, forwards.

F. M. McKewen, referee; umpires, A. McNeil and H. Hamilton.

Unfortunately for the local team the attendance was small. The ice was in good condition and the light was excellent.

THE WEATHER.
The "cold snap" which has just passed was a very severe one. Saturday night was the coldest night and yesterday was the coldest day of the present winter. During Saturday night the temperature fell to 22 below zero; at 8 a.m. it was 10 below; at noon 8 below; at 4 p.m. it had risen to 2 below, but it then began to fall again, and at 10 p.m. it was 10 below. This proved the turning point, as at 10:30 p.m. it was 8 below, and at 8 o'clock this morning it was 6 below zero. Comparison with last year:
1897
Min. -10; Max. -10; 8 a.m. -10; Noon -10; 4 p.m. -10; 8 p.m. -10.
1898
Min. -10; Max. -10; 8 a.m. -10; Noon -10; 4 p.m. -10; 8 p.m. -10.
The sign - signifies below zero.
Minimum and maximum temperatures yesterday: Kamloops, 20-30; Edmonton, 10-20; Calgary, 14-24; Winnipeg, 12-24; Whitecourt, 8-18; Fort Arthur, 12 below-24; South-
ampton, 8 below-18; Toronto, 15 below-16; Ottawa, 21 below-10; Montreal, 20 below-12 below; Quebec, 24 below-10 below; Chatham, 20 below-4 below; Halifax, 4 below-10 below.

THE SOCIAL DANCE.

The Pastor of the Tabernacle Con-
demns It.
Both services at the Tabernacle yesterday were conducted by the pastor, Rev. Newton Hill, and were largely attended. In the morning he took his text from Numbers 14:24. He spoke at length of the necessity of following Christ closely and of serving him wholeheartedly. In the evening his subject was "The Social Dance," taking his text from Job 21, 11 and 14. He said it seemed a peculiar choice of subject for a Methodist minister, as it was a well known fact that the Methodist discipline declares that its members shall not dance. He then referred to the positions taken by other denominations: That at the last meeting of the Presbyterian Assembly they spoke out positively and decidedly against the social dance; that Bishop Mead, of the Episcopal Church, says "It is evil and only evil"; that the Church of Rome prohibits persons from taking the Sacrament who are known to take part in the round dance. His reasons for opposing the dance were (1) that it destroys seriousness; (2) in many cases it leads to the overthrow of morals.

It Seems Apocryphal.

Dr. Sir.—The enclosed clipping from Lloyd's Newspaper of Jan. 18 will, I think, be read with interest by many of your subscribers, whether they conclude to believe it or not.
The Frankfurter General Anzeiger publishes the following extraordinary story:—"The 'lion-hearted' Gordon piper is not a son of the Scottish Highlands, but a German from Hesse-Darmstadt, who is accustomed to answer to the prosaic name of Julius Graumann. Like many other Germans, he has been in service in the British army, thrown in his lot with the Gordon Highlanders, made the campaign as a piper, and, true German that he is, done his duty on the field of battle."

WHO OWNS THE HORSE HIDE.
Albert Clapp charged Mrs. Seams with stealing a horse hide. It appears Albert's horse died and it was drawn out on one of the hides in the bay. Here Mary found it and proceeded at once to skin it. She carried away the skin and the most for her dogs, and has returned the skin.

Anniversary Services.

Anniversary services were preached in Holyday at church yesterday morning and evening by Rev. Dr. Jackson, of Ganoungville. In the evening he took for his text, "What wilt thou do with this man, Christ?" His treatment of the subject was original and able, sermon throughout eloquent and forcible.

ARMY MEDICAL SERVICE.

Highly Interesting Lecture by Surgeon-General Ryerson.

The wounded on active service received skilled attention on Friday evening at the armory, when Deputy Surgeon General Ryerson delivered a very interesting lecture upon the duties of surgeons, ambulance and hospital regiments, and stretcher bearers. He pointed out that through the influence of the Red Cross Society the Imperial Government has loaned to Canada two complete sets of accommodations, including packs and ponies, for a bearer company. The regimental medical staff consists of surgeon, assistant surgeon and bearer section, the bearer section being composed of two men from each company. These men wear the letters "S. B." on their left arms and do not wear the Red Cross because no combatant is allowed, by the treaty of Bern, to wear that emblem of peace except the non-commissioned officers in charge. A full bearer company would consist of sixty-four members, but here in Canada usually the stretcher bearers have no detached service and do not carry rifles and are, therefore, not so numerous. A complete equipment is very expensive, consisting of patients, ambulance wagons, water carts, surgical waggons, and most important of all, the tortoise equipment, which contains a cooking outfit, as well as a very interesting lecture for forty-eight wounded. On the field the wounded are taken by the stretcher bearers from where they fall back to the dressing station, at which they all converge, at least one thousand yards from the fighting line. There hemorrhage is stopped, arteries tied, etc., and the wounded are then taken, not by the stretcher bearers, but by the staff corps, to the field hospital, which is twenty-five hundred yards further back, then by wheel transport or transport ships to the Base Hospital, which in England is Netley. It will be seen that the stretcher bearers encounter greater dangers than the actual combatants, who are usually lying down or firing from cover, whereas the ambulance corps have to stand erect in carrying off their wounded and thus expose themselves. The importance of "cover" was emphasized. During the war of 1812 most of the regulars were wounded in the arms, as, although they had been instructed to take cover, they always held standing and stood behind trees at attention, leaving their arms exposed. Many stirring incidents in connection with the Northwest campaign were related and the lecturer, as an eye witness, gave graphic descriptions of the return of the Australian regiments after the Boer campaign, in which they suffered greatly from shot and also from acids and stabbing at the hands of the women and children of that mountainous country. The new bullet, as it turned out from the factory, will drill a hole as clean as an auger, and it was found that the bullet, which had vowed themselves to death and paradise were not stopped in their mad rush. The nickel shell was therefore split and the bullets now used against the attacks of savage tribes are more devastating. Dr. Ryerson was followed by Surgeon Major Ekins; by Surgeon Lt.-Col. Tracy, of the 49th Batt. of Infantry, who served in the Northwest; by Major Halliday, whose wounds had been first attended to by Dr. Ryerson at Batchoe; by Major Biggar, who experienced as Camp Quartermaster at Kingston and other places enabled him to give some practical suggestions and comments; and by Surgeon Lieut. Yeomans. Sergeant Major Arns (who has already powder) moved a vote of thanks to the lecturer, which was presented to him through Colonel Ponton (who advocated the efficiency of the Canadian fighting) acknowledged. Refreshments were served in the Sergeants' Mess and in the Officers' Quarters, and the evening's enjoyment was enhanced by an exhibition of some rare Indian curios by Mr. Anson Cartwright.

LOOKS LIKE A FLOOD.

The Water Rose Rapidly During the Cold Weather.

The recent cold weather has caused the water in the river to rise again and another flood threatens those living in the low lying parts of the city. The water has risen fully three feet since Saturday and already several cellars along the west side of Front st. have been inundated. The cellar in the City building had a foot of water in it this morning, but as the furnaces are still some distance above the water, no apprehension is felt. Capt. Allen's coal yard and Andrew's wood yard in Murray Ward are both flooded to a depth of from two to three feet and several houses in that locality are in danger of immersion if the water does not recede.

With the moderation of the weather it is hoped that the flood will be abated, but if cold weather should continue untold suffering among the poor people in the low lying parts of the city would certainly ensue.

Two Fire Alarms.

On Saturday evening at about 5:30 the firemen were called to the residence of Mrs. J. T. Warrington, Bridge st., but found upon their arrival that their services were not required, as there was no fire.

The firemen were called out again yesterday afternoon at 4:10 to the residence of Dr. Elliott, who occupies the house of Mrs. L. W. Yeomans, corner of Bridge and John sts. A fire had started in the bath room around some steam pipes. The fire was quickly extinguished, but a question of how many minutes your watch will split a week or month, but how many seconds.

ARE YOU THE LAST?

Information for the Guidance

of Belleville Electors.

Every Voter Should Make Sure That He

Is Enfranchised for the Coming

Provincial Contest.

Conservative electors, in view of the

approaching election, will be interested in

knowing something of the composition and

mode of preparation of the Voters' Lists to

be used thereat. The lists to be used here

will be composed of the names of all electors

on Part I. of the Municipal Voters' Lists

of 1898, with the addition of all names ad-

ded thereto at the sittings to be held in a

few days for the registration of voters.

Under the Manitoba Suffrage Registration

Act a Board of Registrars is constituted.

The Board must hold four sittings for the

registration of voters, the first of which

is to be held on the seventh day after the

dissolution of the House. The sittings

continue from ten o'clock in the morning

of each day till nine o'clock in the evening;

with intermission from one o'clock till two

o'clock and from six o'clock till seven

o'clock. As a rule, order to have his name

registered, a voter must attend personally

before a Registrar during the sittings.

Provision, however, is made for the

registration in a few cases of absentees who

are unable to attend the sittings by reason

of sickness or temporary absence from the

city.

The duty of every Conservative elector

is, in the first place, to be sure that

whether his name is entered on Part I. of

the Municipal Voters' List; if not on that

list, then he should attend on the regis-

tration day, and if he is unable to do so

he should have his name registered by

some one else. It is not sufficient to

compiling a list of hundreds of names, or

names are unavoidable, and a large propor-

tion of those who have been on the list

for twenty years, and who have been

left off the list for 1898. It is perhaps

hardly necessary to mention that a further

check must be made on the list of names

properly entered or registered on the

list, and that it is to attend early on the

morning of election day at his proper

polling booth, and record his vote for the

Liberal-Conservative candidate.

EDMUND BURKE.

An Able and Versatile Statesman Who

Has Attained High Office

Through His Own Merits

Though Burke never attained high

office his abilities were so versatile as to

qualify him for any post which a cap-

able minister could fill. His practical

wisdom was as conspicuous as his power

of generalization. No one had a clearer

conception of the true character of great

principles of universal application; at

the same time his policy in every de-

tail was sound. His political views rested

on a wide and solid basis of information

and experience. He was steeped in the

history of the past, yet penetrated

through the present and the reality of

the future in which the speculation

and the reality of the day were

tested and finally approved or con-
